Impact of grants awarded in 2021/22

"The whole Dorset region is fortunate to have an organisation such as DCF"
Headline figures 21/22

- **Total amount awarded**: £796,170.37 *
- **169 grants to groups via 16 programmes**: £668,956.52
- **484 grants to individuals via five programmes**: £127,213.85
- **Average grant size to groups**: £3,958
- **Average grant size to individuals**: £263
- **50%**: Groups funded with annual expenditure less than £50,000
- **63%**: Groups funded with annual expenditure less than £100,000
- **77%**: Groups funded with annual expenditure less than £200,000
- **Total beneficiaries supported**: 52,685
- **Supported by funded groups**: 52,201
- **Supported by individual awards**: 484
- **Volunteers delivering funded activities**: 3,016

*£353,898.50 also awarded via NHS Charities Together Partnership Grants Programme. DCF responsible for application and panel decision, monitoring and reporting from grantees. Funds awarded via Dorset County Hospital Charity.*
We distributed less funding than in 20/21; a decrease from £1,356,574.21 to £796,170.37. This was due to the loss of significant flow through funding raised by our Coronavirus appeal, including funds from the National Emergencies Trust. However, the funding distributed is more than double the amount distributed in the year previous to the pandemic (19/20), which was £393,786.23. The total beneficiaries supported through grants is less than in 20/21 but remains approximately proportional to the amount of funding distributed; a decreased from 101,197 to 52,685. The proportion of the groups we supported which have annual expenditure less than £50,000 remains at 50 per cent, which shows a consistent approach towards prioritising smaller groups. New funding programmes introduced this year are the BCP Food Support Fund (on behalf of BCP Council), and the Wessex Water Environment Fund. We also delivered three one off funding programmes; BCP Living legacy Fund (blend of funding from BCP Council, Talbt Village Trust and an existing fundholder), the Arts Council Let's Create Jubilee Fund, and the Made by Sport Clubs in Crisis Fund. Comments about us received in End of Grant reports remain overwhelmingly positive – only 4 per cent of comments provided constructive feedback.
Impact on organisational development
(based on a sample of 43 groups)

- **40 per cent** of the groups said the grant enabled them to recruit new staff or volunteers
- **28 per cent** of the groups said the grant helped them to raise funds from other sources (a total of £164,059 was raised by 12 of the sample groups)
- **53 per cent** of the groups said the grant helped them to develop new working relationships or partnerships with other organisations
- **53 per cent** of the groups said the grant helped them to raise awareness of their organisation/services
- **56 per cent** of the groups said the grant helped them to improve their future planning, governance or sustainability
- **33 per cent** of the groups said the grant helped to provide training for staff or volunteers
Feedback

“We are grateful for the funding which formed a contribution to our core costs. In particular, we are grateful for the flexibility. The application and end of grant reporting process was, as always, straightforward and relatively simple to complete.”

“We received great support from the Grants Manager who was open and honest about our application and how our organisation could operate more effectively. This was our first ever grant application and without this level of help none of this would have been possible.”

“As always, we want to thank Dorset Community Foundation for their role in securing and distributing the funding… you are embedded within the community and have first hand knowledge and experience of the challenges faced by our county.”

“DCF has been a key funder for us. You have enabled us to start delivering the activities we set out over five years ago to do. We are so very thankful and encouraged for the future, as you have given us a springboard to build on… it was really valuable having a DCF trustee visit a session.”

“Offering grants for core funding, and trusting us to use this towards supporting our beneficiaries is extremely valuable. In effect, this money is worth more to us than a restricted 'project' grant. As always, the process is straightforward and proportionate to the amount of money available.”
Outcomes for beneficiaries

Disadvantage and Poverty – 21,975 beneficiaries

Older people

- **726 people in financial crisis** have increased financial resilience due to support services that have maximised income, including employment advice, debt advice, applying for benefits, supporting budgeting. This has also resulted in improved mental health

- **432 older people** experiencing fuel poverty received a Surviving Winter grant of £200 to help towards fuel bills to enable them to keep warm. 80 per cent of recipients have a disability or long term health condition

- **2 older people in financial crisis** received grants to improve their home to aid independent living

Friends In Jolly Good Company

“Incredibly important grant for me. Without it I would have definitely finished the year with a fuel debt. I am disabled with a condition that becomes unbearable in the cold and damp of winter, without heating. A huge thank you”

Homeless people

- **180 homeless people** were supported to take their first steps to move away from the streets, through access to healthcare, online resources to arrange appointments and make applications, and addiction support groups

- **52 homeless people** in supported accommodation received mental health support, resulting in improved mental health and resilience to increase their likelihood of success when they move into independent accommodation

- **85 homeless people** were provided with essential household items or furnishings, to support a move into new accommodation and to increase the likelihood of success in their new home

“I honestly thought I would spend forever in my car and you have now given me the courage to face up to my own issues and I can now deal with these from the comfort of my own home. I will forever be grateful.”
People experiencing food poverty – 18,498 beneficiaries

- **15,952 people** received food items, parcels or hampers
- **1,255 people** received a hot meal in a community setting (resulting in a reduction in loneliness),
- **1,291 people** received a Christmas hamper
- **778 people from ethnic minority communities** received culturally sensitive food parcels/meals
- **234 people** reported an increased understanding of other cultures as a result of sharing food together
- **2,000 people from ethnic minority communities** listened to a dedicated radio programme in appropriate languages, to support their understanding of the pandemic and resulting restrictions, and to provide a sense of community support

"Thank you so much to everyone involved from the bottom of my heart. You are making so much difference to people that have nothing at Christmas. My client was absolutely in tears to receive the hamper. She has two children to feed and had no food at all."

Cooking for a crowd with the Friendly Food Club

A meal with Grounded Community
Work, education and training – 2,031 beneficiaries

Young people

- **373 young people** have improved skills in money management following a targeted programme
- **109 young people not in mainstream education** accessed alternative education including therapeutic farming. 55 gained an accredited qualification
- **44 young people from low income households** accessed vocational or STEM courses at college despite financial hardship, due to bursaries for essential costs. Bursaries reduce anxiety, reduce risks of dropping out of college, and give young people greater skills and confidence to apply for employment
- **12 young people not in education, employment or training** received targeted employment support and mentoring, resulting in increased aspirations, new practical skills and improved mental health. Seven have started employment and three have started an accredited course
- **Ten young people** received mentoring, resulting in improved mental health, increased practical and interpersonal skills and increased personal aspirations. 8 started a work experience placement, 5 started volunteering regularly and 4 reported improved attendance and engagement at school
- **Six young people from low income households** were able to continue competing in high level sports despite financial challenges

Vocational bursary recipient Bella Fryer

“\[Cyclist Jamie Witcher received a Young and Talented Fund grant\]

“I wouldn’t have been able to attend Kingston Maurward College if I didn’t get this bursary, the new waterproof jacket also purchased kept me warm in the colder weather and in winter, so I wasn’t cold outside working with the animals.”
727 people experiencing poverty received cooking tuition, resulting in improved cooking and money management skills, increased nutrition awareness.

461 performing artists accessed enhanced networking and peer support opportunities.

119 vulnerable people have improved skills in money management following a targeted programme.

110 professionals working in healthcare, education and prisons have an increased awareness and understanding of the needs of LGBT+ clients.

23 adults with learning disabilities have increased digital inclusion and skills, enabling them to take part in online activities to reduce loneliness.

15 performing artists in financial need received a bursary to enhance their professional development.

12 adults who were unable to read have improved literacy skills, leading to improved mental health – two have secured employment as a result.

Ten disabled women were supported to explore self-employment, resulting in improved mental health and new skills. Four have progressed into early-stage self-employment and six are on a pathway to employment.
Health, wellbeing and mental health – 4,238 beneficiaries

Young people

- **1,389 young people** took part in community sports activities, resulting in improved mental and physical health, and social skills
- **274 young people with mental health difficulties** received support from qualified professionals resulting in improved mental health
- **183 young people** have an improved understanding and awareness of the impact of addictions

“Tennis saved my sanity. It introduced me to other wheelchair users, people I can relate to. It has given me not only a social connectivity with like minded people but the confidence to go on to try other new things.”

Older people

- **363 older people** accessed a range of support services to support independent living and health and wellbeing, such as advice services, befriending, and transport to community activities. Services resulting in improved physical and mental health, reduced isolation and increased financial security.
- **246 older people** attended regular social activities, resulting in improved physical and mental health, and reduced loneliness

People with disabilities or health conditions

- **665 people with mental health difficulties** received specialist support, resulting in improved mental health and self-care and reduced loneliness. Includes 206 new parents
- **590 people with disabilities or health conditions** (including disabled children and people with dementia) attended regular social activities, resulting in improved physical and mental health and increased practical skills and reduced isolation
- **135 people suffering from addictions** were supported to remain abstinent, reporting improved mental health and social networks
Others

- **180 people** took part in a consultation with a local mental health charity, to improve its strategic direction and planning in line with local needs.
- **64 refugees** settling in Dorset attended regular activities, resulting in increased peer networks and support, and improved mental health.
- **64 veterans** took part in social and sports activities, resulting in reduced isolation and improved mental health.
- **85 unpaid carers** (including 45 young carers) took part in social activities providing peer support and friendship, resulting in reduced isolation and improved mental health.

**Loneliness and isolation – 22,447 beneficiaries**

- **18,483 people** from local communities took part in creative community activities to celebrate the Queen’s Jubilee, resulting in a renewed sense of community, increased social networks, reduced isolation, improved mental health, and new engagement with heritage locations and venues.
- **1,069 community participants**, 82 professional artists and 2,187 community audience took part in inclusive, participatory performing arts activities designed with local people in order to benefit the lives of their communities. Outcomes included reduced isolation, increased confidence and wellbeing, increase artistic skills and a renewed sense of community.
- **626 people in deprived communities** took part in community activities at a local hub including voluntary roles supporting others, resulting in reduced isolation, increased access to local services, and improved mental health.

“It has been an extraordinary experience for residents after two years of Covid restrictions... so to be able to open the doors and let children come back in to do a project like this is amazing, and they have loved every single second of it.”

“I thought it was heart-warming to see such an inclusive approach to local theatre, which sent a powerful message about the skills and potential of those with learning disabilities. Once again, a big thank you and well done.”
2,039 community participants took part in environmental projects, resulting in improved biodiversity (e.g., transforming derelict sites into public green spaces, community growing projects, replanting hedgerows and bee-friendly corridors), improved environmental sustainability (e.g., education campaigns, litter picking and recycling activities), and reduction in use of energy and water (e.g., rainwater harvesting solutions).

“By setting up a rainwater harvesting system, several people have already said that they are inspired by our example to make use of the precious resource of rainwater, and will go home and try something similar for themselves.”

“Getting involved in a litter pick is a good opportunity for people to socialise in a less daunting way, to get outside, exercise and engage with the natural environment and local community whilst being proactive and having a positive impact.”

Community gardening at Transition Town Dorchester
“Thank you so much to Arts Council England and Dorset Community Foundation for making this project happen. It was such a joy to be able to be a part of our community's and nation's celebrations of this once in a lifetime moment.”

“Your paperwork is clear and concise, your decision to award us some funding came through promptly, you warned that you would and you have held us to account which made us tighten our processes and be more mindful about our activities and your communication has been clear and timely. Thank you.”

“Working with DCF is always a privilege - straightforward communication, honest engagement and genuine interest in our projects.”

“We are very grateful for the ease of being able to apply and also the end of grant reporting. It is much easier than many grant organisations that we work with, so thank you kindly for all you are doing to help so many people.”

“I would very much like to say how grateful our community group is for the support and funding from DCF. The whole Dorset region is fortunate to have an organisation such as DCF. Indeed, our group has been able to develop and achieve our present standing only because of the support afforded by DCF.”
